presents

Virtual Debate on Environmental Policy by the candidates of Kings-Hants Riding

Federal Election 2021

Tuesday, September 7th at 7:30 PM

We are witnessing more fires, flooding, drought and hurricanes around the world, as well as continuing loss of species and habitat. And we are still dealing with the global impact of Covid-19. On top of that, these events impact people disproportionately around the globe.

With the Federal election on September 20th, 2021 we need to know which political parties have environmental policies that appropriately respond to the climate emergency and species loss in ways that address equity and justice.

Take part in the debate!

confirmed participants include:

Kody Blois, Liberal
Stephen Schneider, NDP & Mark Parent, Conservative

Moderated by Soren Bondrup-Nielsen,
President of the Blomidon Naturalists Society
