Petition to the Premier

WHEREAS our Government currently permits the aerial application of glyphosate-based herbicides on forests in our province, to the detriment of public health and the health of ecosystems we all depend on,

THEREFORE we, the undersigned residents of Nova Scotia, call upon the Premier to initiate a moratorium on aerial spraying of glyphosate based herbicides on all forested lands in Nova Scotia. We ask that this moratorium come into effect by December 31st, 2022.

Signature	Address

Postal code is sufficient for the address. Please return all petition pages with any signatures to J. Hatcher, 961 Parker Mountain Rd, Parker's Cove, NS B0S 1A0 by **October 15th**, **2022**
